

PC40/44/48

DATASHEET

TECHNICAL DATA

Max. Load capacity:	12.500 kg approx.
Load volume for residual material:	PC40: 42 m ³ PC44: 46 m ³ PC48: 50 m ³
Required hydraulic capacity:	2 x 45 l/min.
Required work-pressure:	200-240 bar
Weight (basic):	PC40: 3300 kg PC44: 3600 kg PC48: 3900 kg
Dimensions (h x w x l):	PC40: 2450 x 2550 x 4000 mm PC44: 2450 x 2550 x 4400 mm PC48: 2450 x 2550 x 4800 mm

TYPE PC40/44/48

The Axsel Press Collector is the most efficient tool for collecting large quantities of residual material and being able to load up to 4 times the normal volume due to hydraulic pressing side boards, which can even be operated independently. The Axsel Press Collector is robust, easy in use, with many different mounting options by means of a well thought-out chassis, easy assembly and can be placed on any type of Forwarder or undercarriage. Easy to extend by mounting side panels with bolt connections.

Headboard PC 40/44 Additional weight 270kg	O
Headboard PC 48 Additional weight 370kg	
Extension panels Additional weight each panel 150kg Required for PC 44 2 Required for PC 48 4	O
Bottom plate PC 40/44/48 Additional weight 530kg	O
2 Carrier supports	S
4 mechanical support legs, 380mm	O
4 LED work lights mounted in a steel housing	O
Engine driven powerpack including remote control system	O

S = Standard
O = Option
