

mobile slow-speed shredders

**MRW 2.85 | MRW 2.85h  | MRW 2.85g**

The slow-speed shredders of the Pronar MRW 2.85 series are machines designed with efficiency in mind for operation in medium-sized installations. Thanks to the availability of the hook chassis (meeting the DIN 30722-1 standard), tracked and wheeled chassis, each customer can choose a machine exactly suited to his needs. The hook version is undoubtedly an advantageous purchase price. The wheeled version is perfect for customers who often transport the machine on public roads. The tracked version is undoubtedly easy to move around the yard, while maintaining the dimensions that allow the machine to be easily transported on a low-loader trailer. The 420hp CAT engine in the machine is working with load sensing hydraulics for low fuel consumption. The hook version can be equipped with an electric motor that guarantees low operating costs and enables continuous operation inside the building.

## KEY FEATURES & BENEFITS

- | homogeneous size of final fraction
- | various chassis versions
- | quick set-up time
- | electric motor available

## APPLICATION

- | wood
- | wood-based materials
- | municipal waste
- | bulky
- | industrial
- | construction waste
- | asphalt
- | tires
- | thin-walled scrap

TECHNICAL DATA	MRW 2.85	MRW 2.85g	MRW 2.85h
Dimensions (length/width/height) [mm]	9010/2550/3960	7757/2550/3240	7350/2575/2740
Weight [kg]	~26000*	~26380*	~21500*
Number of shafts	2	2	2
Shafts length [mm]	1700	1700	1700
Loading height [mm]	3220	3030	2480
Working chamber dimensions (length/width) [mm]	1720/2340	1720/2340	1720/2340
Hopper capacity [m <sup>3</sup> ]	~3	~3	~3
Engine	CAT C9.3B, 310 kW, Stage V/Tier 4 Final; CAT C9, 280 kW, Tier 3)	CAT C9.3B, 310 kW, Stage V/Tier 4 Final; CAT C9, 280 kW, Tier 3)	CAT C9.3B, 310 kW, Stage V/Tier 4 Final; CAT C9, 280 kW, Tier 3) ABB, 250 kW + 22 kW

\* Weight depends on the specification of the individual piece and may be higher
